abc7la There's only one week left to check out the @portraitsofhopeprojects "Neon Nights in 3D" in Beverly Hills! The historic Beverly Hills sign and lily pond has been transformed, with more than 1,000 art discs painted in eye-popping, fluorescent colors. When you throw on 3-D glasses the discs come to life! The exhibit is on display through Thursday, August 31. For details, click the link in the profile at @lovebevhills. Thanks to Eyewitness @calistreetshots for this pic of the installation! Share your city's public art with #abc7eyewitness!
